The accompanying notes are an integral part of the condensed interim consolidated financial statements.

**1. NATURE OF OPERATIONS AND GOING CONCERN**

InZinc Mining Ltd. (the "Company") was incorporated on October 24, 1997 under the laws of British Columbia and was continued under the Canada Business Corporations Act in June, 2002. The Company's head office is at 912 - 1112 West Pender Street, P.O. Box 48268, Station Bentall Centre, Vancouver, BC, V7X 1A2. The Company is listed on the TSX Venture Exchange ("TSX-V") under the trading symbol IZN.V.

The Company's principal business activities include the acquisition and exploration of mineral exploration and evaluation assets. Its current focus is on a mineral property domiciled in the United States. The Company has recently acquired an exploration and evaluation asset in Canada. The Company has not yet determined whether its exploration and evaluation assets contain ore reserves that are economically recoverable. The recoverability of the amounts shown for exploration and evaluation assets are dependent upon the existence of economically recoverable reserves, the ability of the Company to obtain necessary financing to complete the development of those reserves and upon future profitable production. To date, the Company has not earned any revenues and is considered to be in the exploration stage.

These condensed interim consolidated financial statements have been prepared assuming the Company will continue on a going-concern basis. The Company has incurred losses since its inception and the ability of the Company to continue as a going-concern depends upon its ability to raise adequate financing and to develop profitable operations. The condensed interim consolidated financial statements do not include adjustments to amounts and classifications of assets and liabilities that might be necessary should the Company be unable to continue operations. These material uncertainties may cast significant doubt upon the Company's ability to continue as a going concern.

The continuance of the Company's operations is dependent on obtaining sufficient additional financing in order to realize the recoverability of the Company's investments in exploration and evaluation assets which is dependent upon the existence of economically recoverable reserves and market prices for the underlying minerals. Management closely monitors metal commodity prices, individual equity movements and the stock market to determine the appropriate course of action to be taken by the Company if favourable or adverse market conditions occur.

**2. BASIS OF PRESENTATION****Statement of compliance**

These condensed interim consolidated financial statements, including comparatives, have been prepared in accordance with IAS 34, Interim Financial Reporting, as issued by the International Accounting Standards Board ("IASB") and the interpretations of the IFRS Interpretations committee ("IFRIC"s). They do not include all disclosures required by International Financial Reporting Standards ("IFRS") for annual financial statements, and, therefore, should be read in conjunction with the Company's audited consolidated financial statements for the year ended December 31, 2016, prepared in accordance with IFRS as issued by the IASB.

These condensed interim consolidated financial statements were authorized for issue by the Audit Committee and Board of Directors on May 30, 2017.

**Basis of presentation**

These condensed interim consolidated financial statements have been prepared on a historical cost basis except for certain non-current assets and financial instruments, which are measured at fair value.

**2. BASIS OF PRESENTATION (continued)****Functional and presentation currency**

In addition, these condensed interim consolidated financial statements have been prepared using the accrual basis of accounting, except for cash flow information.

These condensed interim consolidated financial statements are presented in Canadian dollars, unless otherwise noted, which is the functional currency of the parent and of its subsidiary.

**Basis of consolidation**

These condensed interim consolidated financial statements of the Company include the accounts of the Company and its wholly-owned subsidiary, N.P.R. (US) Inc., a Nevada corporation, the principal activity of which is exploration in the United States. Control exists when the Company has the power, directly or indirectly, to govern the financial and operating policies of an entity so as to obtain benefits from its activities. All inter-company transactions and balances have been eliminated upon consolidation.

**Significant estimates**

The preparation of these condensed interim consolidated financial statements in conformity with IFRS requires management to make certain estimates, judgments and assumptions that affect the reported amounts of assets and liabilities at the date of the condensed interim consolidated financial statements and the reported expenses during the period.

Although management uses historical experience and its best knowledge of the amount, events or actions to form the basis for judgments and estimates, actual results may differ from these estimates.

Critical estimates exercised in applying accounting policies that have the most significant effects on the amounts recognized in the condensed interim consolidated financial statements are as follows:

**Economic recoverability and probability of future economic benefits of exploration and evaluation assets**

Management has determined that exploration, evaluation, and related costs incurred which were capitalized may have future economic benefits and may be economically recoverable. Management uses several criteria in its assessments of economic recoverability and probability of future economic benefits including, geologic and other technical information, a history of conversion of mineral deposits with similar characteristics to its own properties to proven and probable mineral reserves, the quality and capacity of existing infrastructure facilities, evaluation of permitting and environmental issues and local support for the project.

**Valuation of share-based compensation**

The Company uses the Black-Scholes Option Pricing Model for valuation of share-based compensation. Option pricing models require the input of subjective assumptions including expected price volatility, interest rate, and forfeiture rate. Changes in the input assumptions can materially affect the fair value estimate and the Company's earnings and equity reserves.

**Income taxes**

In assessing the probability of realizing deferred tax assets, management makes estimates related to expectation of future taxable income, applicable tax opportunities, expected timing of reversals of existing

**2. BASIS OF PRESENTATION (continued)**Income taxes (continued)

temporary differences and the likelihood that tax positions taken will be sustained upon examination by applicable tax authorities. In making its assessments, management gives additional weight to positive and negative evidence that can be objectively verified.

**Significant judgement**

Information about critical judgments in applying accounting policies that have the most significant effect on the amounts recognized in these condensed interim consolidated financial statements are, but are not limited to, as follows:

Determination of functional currency

The Company determines the functional currency through an analysis of several indicators such as expenses and cash flow, financing activities, retention of operating cash flows, and frequency of transactions with the reporting entity.

**3. SIGNIFICANT ACCOUNTING POLICIES**

There have been no significant changes to the Company's significant accounting policies from those disclosed in the consolidated financial statements for the year ended December 31, 2016.

**New and amended IFRS pronouncements**

A number of new standards, amendments to standards and interpretations applicable to the Company are not yet effective and have not been applied in preparing these condensed interim consolidated financial statements.

- a. IFRS 9, "Financial Instruments", replaces the guidance in IAS 39, "Financial Instruments: Recognition and Measurement", and includes requirements for recognition and measurement, impairment, derecognition and general hedge accounting. The standard is effective for annual periods beginning on or after January 1, 2018, with earlier application permitted. The Company does not intend to early adopt IFRS 9.
- b. IFRS 15, "Revenue from Contracts with Customers", establishes principles that an entity shall apply to report useful information to users of financial statements about the nature, amount, timing and uncertainty of revenue and cash flows arising from a contract with a customer. The standard is effective for annual periods beginning on or after January 1, 2018, with earlier application permitted. The Company does not intend to early adopt IFRS 15.

None of the remaining standards and amendments to standards and interpretations are expected to have a significant effect on the condensed interim consolidated financial statements of the Company.

**4. CASH**

Cash is comprised of cash in Canadian and US financial institutions:

	<b>March 31, 2017</b>	<b>December 31, 2016</b>
Cash in US financial institutions	\$ 277	\$ 461
Cash in Canadian financial institutions	459,564	482,268
Total cash	\$ 459,841	\$ 482,729

**5. RECEIVABLES**

Trade and other receivables were comprised of the following:

	<b>March 31, 2017</b>	<b>December 31, 2016</b>
GST receivable	\$ 2,104	\$ 35,294
Other receivables	5,331	-
	\$ 7,435	\$ 35,294

**6. MARKETABLE SECURITIES**

Marketable securities are classified as available for sale financial instruments, which are adjusted to market value. As at March 31, 2017 the fair market value of the securities held was \$1,708 (December 31, 2016 - \$1,874).

**7. EXPLORATION AND EVALUATION ASSETS**

Title to exploration and evaluation assets involves inherent risks due to difficulties of determining the validity of certain mineral claims and leases as well as the potential for problems arising from the frequently ambiguous conveyancing history characteristic of many exploration and evaluation assets. The Company has investigated title to its exploration and evaluation asset and, to the best of its knowledge, title is in good standing.

**West Desert Property**

The Company holds a 100% interest in various mining claims and a mineral lease referred to as the West Desert Property, located in Utah, USA.

**Indy Property**

On October 18, 2016, the Company entered into an option agreement with Pac Shield Resources Inc. ("PSR"), a private British Columbia company, to acquire a one hundred percent (100%) interest in and to certain mineral claims located in the central British Columbia referred to as the Indy Property ("Indy").

**7. EXPLORATION AND EVALUATION ASSETS (continued)**

**Indy Property (continued)**

To acquire Indy, the Company must make cash payments totaling \$305,000, issue a total of 2,100,000 common shares, and complete work commitments of \$2,600,000, as follows:

	<b>Acquisition in cash</b>	<b>Acquisition in shares</b>	<b>Work commitments</b>
March 24, 2017 (completed)	\$ -	200,000	\$ -
April 4, 2017 (Note 15)	30,000	-	-
January 29, 2018	25,000	200,000	75,000
January 29, 2019	25,000	300,000	200,000
January 29, 2020	25,000	400,000	325,000
January 29, 2021	75,000	500,000	750,000
January 29, 2022	125,000	500,000	1,250,000
	<b>\$ 305,000</b>	<b>2,100,000</b>	<b>\$ 2,600,000</b>

In addition, a \$500,000 cash payment and the issuance of 500,000 shares of the Company will be made to PSR if the Company files a technical report establishing a 500,000,000 pound zinc resource on the property. A further \$500,000 cash payment will be made to PSR should the Company file a technical report establishing a 750,000,000 pound zinc resource on the property.

The property is subject to a 1.0% net smelter returns royalty ("NSR") held by PSR (the "PSR NSR") and a 1.5% NSR held by Kerry Curtis, a director, Chairman of the Board and the interim Chief Executive Officer of the Company, and a director and the controlling shareholder of PSR. On exercise of the option and prior to completion of a feasibility study on the property, the Company has the right to purchase the PSR NSR for \$1,500,000.

The following table represents expenditures incurred on the exploration and evaluation assets during the three months ended March 31, 2017:

	<b>West Desert</b>	<b>Indy</b>	<b>Total</b>

**9. SHARE CAPITAL AND RESERVES****Common shares**

The Company has authorized share capital of unlimited common shares without par value.

During the three months ended March 31, 2017, the Company issued:

- i. 200,000 common shares, valued at \$48,000, pursuant to the Indy option agreement; and
- ii. 500,000 common shares, for proceeds of \$50,000, pursuant to the exercise of stock options.

**Stock options**

The Company grants stock options to employees and consultants as compensation for services, pursuant to its incentive Share Option Plan (the "Plan"). Options issued must have an exercise price greater than or equal to the "Discounted Market Price" of the Company's stock on the grant date. Options have a maximum expiry period of up to five years from the grant date and vest at such time as may be determined by the Board of Directors at the date of the grant. Options granted to consultants performing investor relations activities shall vest in stages over a 12-month period with a maximum of one-quarter of the options vesting in any three-month period. The number of options that may be issued under the Plan is limited to no more than 10% of the Company's issued and outstanding shares on the grant date.

During the three months ended March 31, 2017, the Company did not grant any options. During the three months ended March 31, 2017, the Company expensed \$20,636 (2016 - \$Nil), which was recorded in share-based compensation.

**10. RELATED PARTY TRANSACTIONS (continued)****Summary of transactions with other related parties**

The following amounts were incurred with respect to the Company's non-executive directors:

	<b>For the three months ended</b>	
	<b>March 31, 2017</b>	<b>March 31, 2016</b>
Share-based compensation	\$ 11,966	\$

Included in rent is \$2,250 (March 31, 2016 - \$Nil) paid or accrued to a company related by the CFO and \$Nil (March 31, 2016 - \$6,000) paid or accrued at cost to a company related by a common ex-director.

Included in accounts payable and accrued liabilities are amounts owing to related parties of \$14,322 (December 31, 2016 - \$6,372).

**11. SUPPLEMENTAL DISCLOSURE WITH RESPECT TO CASH FLOWS**

For the three months ended March 31, 2017, the Company's significant non-cash transactions consisted of:

- i. shares issued for acquisition of exploration and evaluation assets of \$48,000;
- ii. change in fair market value of marketable securities of \$166; and
- iii. allocation of reserves on exercise of options of \$40,000.

There were no significant non-cash transactions for the three months ended March 31, 2016.

**12. SEGMENTED INFORMATION**

The Company operates in one industry segment being the acquisition and exploration of mineral exploration and evaluation assets. The total assets attributable to the geographical locations relate primarily to exploration and evaluation assets and are all located as follows:

	<b>United States</b>	<b>Canada</b>	<b>Total</b>
<b>December 31, 2016</b>			
Exploration and evaluation assets	\$ 5,669,667	\$ -	\$ 5,669,667
<b>March 31, 2017</b>			
Exploration and evaluation assets	\$ 5,673,240	\$ 50,231	\$ 5,723,471

**13. FINANCIAL INSTRUMENTS AND RISK MANAGEMENT**

Financial instruments measured at fair value are classified into one of three levels in the fair value hierarchy according to the relative reliability of the inputs used to estimate the fair values. The three levels of the fair value hierarchy are:

- Level 1 – Unadjusted quoted prices in active markets for identical assets or liabilities;
- Level 2 – Inputs other than quoted prices that are observable for the asset or liability either directly or indirectly; and
- Level 3 – Inputs that are not based on observable market data.

**13. FINANCIAL INSTRUMENTS AND RISK MANAGEMENT (continued)**

Cash and marketable securities are measured at fair value using level 1 inputs. The value of receivables, reclamation deposit, and accounts payable and accrued liabilities approximates their carrying values.

The Company is exposed to a variety of financial risks by virtue of its activities including currency, credit, interest rate, liquidity and price risk.

*Credit risk*

The Company is exposed to industry credit risks arising from its cash holdings and receivables. The Company manages credit risk by placing cash with major Canadian financial institutions. The Company's receivables are due from the Federal Government of Canada. Management believes that credit risk related to these amounts is nominal.

*Liquidity risk*

Liquidity risk is the risk that the Company will not have sufficient funds to meet its financial obligations when they are due. To manage liquidity risk, the Company reviews additional sources of capital and financing to continue its operations and discharge its commitments as they become due.

*Interest rate risk*

Interest rate risk is the risk that the fair value of future cash flows of a financial instrument will fluctuate because of changes in market interest rates. As of March 31, 2017, the Company held an interest bearing demand deposit with a face value \$321,944. A change in interest rates of 1% will change income by \$3,219 per annum.

*Foreign currency risk*

The Company is exposed to foreign currency risk on fluctuations related to cash and accounts payables and accrued liabilities that are denominated in United States Dollars. However, management believes the risk is not currently significant.

*Price risk*

The Company has limited exposure to price risk with respect to commodity and equity prices. Equity price risk is defined as the potential adverse impact on the Company's earnings due to movements in individual equity prices or general movements in the level of the stock market. Commodity price risk is defined as the potential adverse impact on earnings and economic value due to commodity price movements and volatilities.

**14. CAPITAL MANAGEMENT**

The Company manages its capital structure and makes adjustments to it, based on the funds available to the Company, in order to support the acquisition and exploration of exploration and evaluation assets. The Board of Directors does not establish quantitative return on capital criteria for management, but rather relies on the expertise of the Company's management to sustain future development of the business. The Company defines capital that it manages as share capital, options and warrants.

The properties in which the Company currently has an interest are in the exploration stage; as such the Company has historically relied on the equity markets to fund its activities.

**14. CAPITAL MANAGEMENT (continued)**

The Company will continue to assess new properties and seek to acquire an interest in additional properties if it feels there is sufficient geologic or economic potential and if it has adequate financial resources to do so.

Management reviews its capital management approach on an ongoing basis and believes that this approach, given the relative size of the Company, is reasonable. The Company is not subject to externally imposed capital restrictions.

**15. SUBSEQUENT EVENT**

Subsequent to March 31, 2017, the Company paid the \$30,000 option payment for the Indy property (Note 7).
